It's time to build trust, raise engagement, and increase productivity and joy. If you are spending too much of your day as a referee or counselor or trying to hide from

team members, give me a call, there is a better way!

“I have had the pleasure of working with Jane on several platforms.

What Leaders Say

The first experience was a formal management course, which was in a group setting. Jane was always upbeat, professional and brought a dynamic to the sessions that encouraged you to grow your professional brand. After several sessions through this management course, it became apparent that my team could also benefit from her expertise. Following the sessions we scheduled a team building experience with two of our local facilities. It was a great opportunity for our team to get professional coaching in effort to bring alignment within our business. It has been over a year and people still talk about how crucial it has been to our teams success. The last and most important part of Jane’s coaching was my own personal development, which consisted of one-on-one coaching sessions. Over the course of 6 months, we had several sessions. After each session we were able to build upon our discussion from the last session. During this process I have grown both personally and professionally. I can honestly say that I would not be as far as I am without her help and would encourage others to take advantage of her personal coaching sessions. Thanks again Jane for all your help.”

Billy Smith
COO in Manufacturing

“I was part of Jane's training at Watertown Mayer High School several years ago. I still apply what I learned as Vice Chair on the national Business Professionals of America board of trustees. Her training is invaluable and so vital to working relationships especially in today's virtual environment.”

Nancy McAfee
BPA BOT, Vice Chair/MNBPA, webmaster & staff/Substitute Teacher, Districts 877 & 284

“I have been leveraging Jane’s skills for the past 15 years across different companies and industries. She continues to exceed my expectations and is extremely flexible, she does not just provide cookie cutter or flavor-of-the-day programs.

I have found Jane’s methodologies and tools to be very effective when forming or developing teams including executive teams. She has mentored many of my leaders and provided them a roadmap to develop critical skills to continue to enhance their careers and be business leaders.

Jane’s ability to assess, challenge and enhance a team’s leadership skills by using tools and methodologies has been very beneficial to me as a business owner in growing my team and developing my successor.”

Rob Beyer, President & CEO
EarthBend, Sioux Falls, SD 57105
